Policy Statement

Great British Guardians will comply with all statutory requirements of The Data Protection Act 1998 (“the Act”) by taking all reasonable steps to ensure the accuracy and confidentiality of such information. *Great British Guardians* needs to gather and use certain information about individuals. These can be parents, students, agents, host families, suppliers, business contacts, employees and other people the guardianship organisation has a relationship with or may need to contact.

This policy describes how this personal data must be collected, handled and stored to meet the *Great British Guardians* data protection standards, and to comply with the legislation.

Policy

Why this policy exists:

This data protection policy ensures *Great British Guardians*:

- Complies with data protection law and follows good practice;
- Protects the rights of staff, parents, students, host families and partners (such as schools);
- Is open about how it stores and processes individual’s data;
- Protects itself from the risk of data breach.

The Information Commissioner’s Office

The Information Commissioner’s Office (ICO) is “the UK’s independent authority set up to uphold information rights in the public interest, promoting openness by public bodies and data privacy for individuals” (ICO website). It is responsible for administering the provisions of the Data Protection Act 1998; the Freedom of Information Act 2000; and the General Data Protection Regulation 2018.

The Act requires every data controller who is processing personal information to register with the ICO (unless exempt). *Great British Guardians* is registered with the ICO as a data controller, and this is renewed annually (Registration reference: ZA076486).

The ICO publishes a Register of data controllers on their website, on which *Great British Guardians* is listed.

The Data Protection Act 1998

Directives lay down certain results that must be achieved but each Member State is free to decide how to transpose directives into national laws. EU directives are addressed to the member states and are not legally binding for individuals in principle. The member states must transpose the directive into internal law – Acts. Directive 95/46/EC on the protection of personal data had to be transposed by the end of 1998, when it became now as The Data Protection Act 1998.

The Act protects individuals’ rights concerning information about them held on computer and in any *Great British Guardians* personnel files and databases. These rules apply regardless of whether data is stored electronically, on paper or other materials.

To comply with the law, personal information must be collected and used fairly, stored safely and not disclosed unlawfully.

The Freedom of Information Act 2000

The Freedom of Information Act 2000 provides public access to information held by public authorities, in two ways:

- public authorities are obliged to publish certain information about their activities; and
- members of the public are entitled to request information from public authorities.

General Data Protection Regulation 2018

Regulations have binding legal force throughout every Member State and enter into force on a set date in all the Member States. The General Data Protection Regulation (GDPR) (EU) 2016/679 is a regulation in EU law on data protection and privacy for all individuals within the European Union.

GDPR replaces the 1995 Data Protection Directive (Directive 95/46/EC) - The Data Protection Act 1998. Although the key principles of data privacy still hold true to the previous directive, many changes have been proposed to the regulatory policies.

The GDPR places greater emphasis on the documentation that data controllers must keep demonstrating their accountability. Compliance requires organisations to review their approach to governance and how they manage data protection as a corporate issue.

Great British Guardians will handle and protect all information in line with data protection principles set out in the Act. Under the Act, anyone processing data must comply with the eight principles of good practice for data protection, as detailed below:

Data will be:

- Fairly and lawfully processed;
- Processed for limited purposes;
- Adequate, relevant and not excessive in relation to the purpose(s) for which they are processed;
- Accurate and kept up to date;
- Not kept longer than necessary;
- Processed in accordance with the data subject's rights under the Act;
- Secure and protected. Appropriate technical and organisational measures are in place to protect data from unauthorised or unlawful processing and from accidental loss, damage or destruction;
- Not be transferred to a country or territory outside of the European Economic Area (EEA) unless we can be assured there is an adequate level of protection for the rights and freedoms of the data subjects.

This *Great British Guardians* Data Protection policy applies to personal data as defined by the Act – that is, data from which a living individual can be identified, either from data alone, or from that data and other information that is held by the data controller. This includes information held on computer, paper files, photographs etc.

Responsibilities

This policy applies to the main office of *Great British Guardians*, all staff and volunteers of *Great British Guardians*, and all host families and other people working on behalf of *Great British Guardians*. The scope of the policy applies to all data held by *Great British Guardians* relating to identifiable individuals. Everyone who works for *Great British Guardians* has responsibility for ensuring data is collected, stored and handled appropriately – all must ensure personal data is handled, processed and kept securely in line with this policy and data protection principles.

Great British Guardians are responsible for:

- Keeping up to date about data protection responsibilities, risks and issues;
- Reviewing all data protection procedures and policies;
- Arranging data protection training if required;
- Handling data protection queries from those working for and with *Great British Guardians*;
- Dealing with requests from individuals relating to the data *Great British Guardians* holds about them;
- Assisting with any agreements with third parties that may handle sensitive data;

- Working with *Great British Guardian's* IT contractors to ensure that all systems, services and equipment used for storing data meet acceptable security standards, including ensuring regular checks, scans and updates to ensure security hardware and software are functioning properly.

The purpose of the Act is to make sure that personal data is used in a way that is fair to the individual and protects their rights, while enabling organisations to process personal data in pursuit of their legitimate aims.

Staff guidelines

- Personal data should not be shared informally – it should not be sent by email – this form of communication is not secure;
- Personal data must be encrypted before being transferred electronically. *Great British Guardians* uses a Gmail server which always uses Transport Layer Security (TLS) by default – a type of end-to-end encryption, which provides internet security over a computer network, which aims to protect privacy and data integrity between two communicating computer applications. *Great British Guardians* uses TLS to encrypt and protect email traffic in transit. Without the TLS, emails cannot be accessed by *Great British Guardians*. TLS is handled by the server and the Gmail software. Webmail is the way to access *Great British Guardians* emails outside of Gmail. Only people with access details are permitted to access the *Great British Guardians* webmail system. The webmail is password protected, and this needs to be a specific strength to work;
- Employees should not save copies of personal data to their own computers/laptops –personal data should always be accessed and updated via the central copy of any data – the *Great British Guardians* server;
- Employees should keep all data secure, taking sensible precautions and following these guidelines;
- Strong passwords must be used, and never shared;
- Personal data should not be disclosed to unauthorised people, either within *Great British Guardians* or externally;
- Data should be regularly reviewed and updated if found to be out of date. If no longer required, it should be deleted and/or disposed of;
- When not in use, paper format data or files (for instance, DBS applications) should be kept in a locked drawer or filing cabinet;
- Employees should make sure paper and printouts are not left where unauthorised people could see them, for instance, on a printer;
- Data printouts should be shredded and disposed of securely when no longer required;
- When working with personal data, employees should ensure computer/laptop screens are always locked when left unattended;
- Where data is stored electronically, it must be protected from unauthorised access, accidental deletion and malicious hacking attempts;
- If data is stored on removable media (for instance, a CD or USB), these should be encrypted and kept locked away securely when not in use;
- Data should only be stored on designated drives and servers, and/or approved cloud computing services;
- Data should be backed up frequently, and backups should be tested regularly;
- All servers and computers containing data should be protected by approved security software and a firewall;
- Personal data should never be saved directly to laptops or other mobile devices like smart phones or tablets, unless encrypted.

Great British Guardians may collect and process the following examples of data:

- Full name (including title, forename(s), family name);
- Job title;

- Contact information (for example, current home/business address, telephone numbers, email addresses, website address);
- Qualifications/experience;
- Date of birth;
- Information relevant to HR (for example: C.V.s, interview notes, referee details, ID);
- Student medical details;
- Copies of students' passport, Visa and BRP;
- DBS reference numbers for Host Families and other third party contractors;
- School name and personnel;
- School year group;
- Main language for correspondence;
- Level of guardianship service provided;
- Date of last visit for student (at host family);
- Whether private fostering assessment has been undertaken by the Local Authority;
- Details of venues (name, location, address, contact details);
- Feedback forms;
- Photographs (for example, students, staff, host families).

Great British Guardians may use/process this information to:

- Carry out our obligations arising from any contracts/ agreements entered into by you and us;
- Contact parents, students, host families and schools;
- Undertake administrative functions (for example, HR, contact referees);
- Process DBS applications;
- Compile marketing lists (e.g. for newsletter and conferences);
- Handle complaints;
- Conduct research;
- Share anonymous details with 3rd parties for the purpose of obtaining professional advice;
- Understand people's views and opinions (for example, via feedback forms);
- Send out information that *Great British Guardians* thinks might be of interest to others;
- Improve our services;
- Comply with legal and regulatory obligations;
- As part of the accreditation process, *Great British Guardians* is required to send the AEGIS office a copy of the contact details for all their host families, partner schools and parents. They will also provide the names of the students. This data is held securely by AEGIS and is destroyed once the inspection process is finished.

Protecting your information

Great British Guardians has appropriate technical and organisational measures in place to protect your information. Paper files are locked away securely and electronic files are protected by access rights (strong passwords are used) set at a server level. All electronic files are automatically backed up every workday, including weekends, using AES 256 password strength encryption to the company's Dropbox storage system.

Host family guidelines

Host families may have access to sensitive or personal information about the students they are hosting (such as medical information). This is to enable them to provide suitable care to the student.

Host families should keep all data secure, taking sensible precautions and following these guidelines.

- Strong passwords must be used, and never shared;

- Personal data should not be disclosed to unauthorised people, either within *Great British Guardians* or externally;
- If no longer required, data should be deleted and/or disposed of;
- When not in use, paper format data should be kept in a locked drawer or filing cabinet;
- Where data is stored electronically, it must be protected from unauthorised access, accidental deletion and malicious hacking attempts;
- If data is stored on removable media (for instance, a CD or USB), these should be kept locked away securely when not in use;
- Personal data should never be saved directly to laptops or other mobile devices like smart phones or tablets, unless encrypted.

Data accuracy

The law requires *Great British Guardians* to take reasonable steps to ensure data is kept accurate and up to date. It is the responsibility of all employees and people working with *Great British Guardians*, who work with data, to take reasonable steps to ensure it is kept accurate and as up to date as possible.

- Data should be held in as few places as necessary. Staff should not create any unnecessary additional data sets;
- Staff should take every opportunity to ensure data is updated, for instance, details can be updated when a parent calls;
- *Great British Guardians* will make it easy for data subjects (for instance, host families and parents) to update their own information *Great British Guardians* holds about them, for instance, via the *Great British Guardians* website;
- Any data inaccuracies should be corrected as soon as discovered, for instance if a member can no longer be reached on their stored telephone number, this should be removed from the database).

Data protection risks

This policy helps to protect *Great British Guardians* from data security risks including:

- Breaches of confidentiality, for instance: information being given out inappropriately;
- Failing to offer choice, for instance: all individuals should be free to choose how *Great British Guardians* uses data relating to them;
- Reputational damage, for instance: *Great British Guardians* could suffer if hackers successfully gained access to sensitive data.

Accessing your information

Under the Act, an individual is entitled to ask *Great British Guardians*:

- For a copy of the personal information held by *Great British Guardians*;
- For any inaccuracies to be corrected;
- How to gain access to such data;
- How they are meeting their data protection obligations.

Such requests are known as 'subject access requests'. Such requests should be made either via email or via the post.

Email requests should be addressed to Stephen Arnott, the Data Controller, at stephen@gbguardians.com.

Postal requests should be submitted to: Stephen Arnott, Hellscombe, Aldbourne, Marlborough, Wiltshire, SN8 2JZ.

There is no administration charge for any subject access request. The data controller will aim to provide the relevant data within 14 working days. The data controller will always verify the identity of anyone making a subject access request before handing over any information.

Sharing your personal information

In certain circumstances, the Data Protection Act allows personal data to be disclosed to law enforcement agencies without the consent of the data subject. Under these circumstances, *Great British Guardians* will disclose requested data. However, the data controller will ensure the request is legitimate, seeking assistance from the Stephen Arnott, and by taking legal advice where necessary. If on the rare occasion, we need to share data, we will only use data anonymously.

If personal information is shared, it will be done so in line with the Act. You are entitled to know why and how we are sharing your personal information and the organisation or individual receiving your personal information will be required to protect your information in line with the Act.

Logging and recording of communications with individuals

Great British Guardians may log communications with you for the purposes described earlier in this policy.

Links to other websites on the *Great British Guardians* website

Our website includes links to other websites (for example: to other organisations dealing with boarding students, government departments and agencies). We are not responsible for the data protection and privacy practices of these organisations, including their website. This Data Protection Policy applies to *Great British Guardians* only.

Cookies

Refer to *Great British Guardians* Privacy Notice on the *Great British Guardians* website.

Providing information

Great British Guardians aims to ensure that individuals are aware that their data is being processed and that they understand:

- How the data is being used;
- How to exercise their rights.

To these ends, a copy of this policy which sets out how data relating to individuals is used by *Great British Guardians* can be available on request. This policy is also available on the *Great British Guardians* website.

For further information

If you have any questions about this policy, please contact Stephen Arnott at the contact details listed above.

Review

We are committed to reviewing our policy and good practice annually.

This policy was last reviewed on: 01 March 2023.

Signed by Stephen Arnott.
